W10

One Sensor, Hundreds of Applications

Streamlined

Reduction of part numbers and "one for all" concept for all applications - enables one part to order, manage, train on, troubleshoot, and replace.

Simple

Industry first touchscreen user interface for simple, intuitive, and confident setup - no manual required.

Secure

Elimination of unwanted in-field changes with button-free interface with lockout ability.

Range

20 - 700mm (long range)
20 - 400mm (short range)

Connectivity

2 digital outputs
IO-Link

Material & IP rating

316L Stainless Steel,
IP69K

Modes

Speed. Standard.
Precision - Background,
Foreground Suppression

Presence

Positioning
